(<http://www.saexpa.com>)

Saexpa is an industrial company given solutions in the world of wire and tube since 1985.

The products we manufacture are metallic and tube containers, protections for air-conditioning centrals, stainless steel structures and is specialized in manufacture all forms of mesh decks for both pallet racking and picking installations, and a wide range of pallet racking accessories and tramex for all type of the logistics installations.

Saexpa has facilities equipped with the most advanced technology for the operations such as cutting, welding, curving tube or wire and general machines for the manual operations.
